

Lemon Garden Design

Vice President - Edward Guy, P.Eng

Certification and Licensing

Certificate in Data Processing.
Registered Professional Engineer.
Chartered Engineer (UK).

Other Areas of University Study

Management and Administration.
Tariffs, Economics, Finance and Budgeting.
Communication Psychology.
Law and Administrative Tribunal Practice.

Professional Memberships

Association of Software Professionals.
Institution of Engineering and Technology (formerly: Institution of Electrical Engineers).
Association of Professional Engineers of British Columbia.

Ed Guy's career ascent has followed a zig-zag path, alternating several times between the "technical - scientific - engineering" and "economic - finance - legal" areas.

Ed has often been described as a "catalyst for change" because of his involvement in many successful start-ups and conversions. Only

once has a system he was involved in not entered successful operation. That was because while doing the analysis he found a way of avoiding the need for the system, by recommending other business process changes.

1957-1963	Nottingham Trent University / East Midlands Electricity Board	Engineering studies and practical training
1963-1964	East Midlands Electricity Board, Lincoln	Fourth Engineer, Construction and Operation
1964-1965	Central Electricity Generating Board Headquarters, London	Third Engineer, Planning
1965-1967	Midlands Electricity Board Headquarters, Birmingham	Second Engineer, Planning
1967-1968	Saskatchewan Power Corporation, Regina	Special Studies Engineer
1968-1973	Calgary Power Ltd, Calgary	Rates and Tariffs Engineer
1973-1976	Canadian Artic Gas Pipeline Ltd, Calgary	Coordinator of Planning; Supervisor of Systems Design and Programming
1976-1977	Alberta Petroleum Marketing Commission	Director - Technical; Director - Cost of Service Regulation
1977-1987	BC Hydro and Power Authority, Vancouver	Supervisor of Regulatory Affairs
1987-1992	British Columbia Industrial Relations Council, Vancouver British Columbia Labour Relations Board, Vancouver	Manager of Information Technology
1992-1993	British Columbia Workers' Compensation Board, Richmond	Manager of Information Technology Audit
1993-1997	Kinsmen Rehabilitation Foundation, Vancouver	Manager of Administration and Finance
1982-present	Guy Software	Owner

An expert at "doing more with less", he has demonstrated that the most expensive solution is frequently not the best solution. When managing a Government agency's information systems department he was able to produce envied results while spending approximately half what surveys showed that others were spending to operate a system of its size and complexity. His article "Co-operative Processing - Cheap", published in Computing Canada in 1991, resulted in visits by many other systems experts to see how it was done.

Ed's community involvement has included six years of service on the West Vancouver Advisory Planning Commission, over fifteen years of service as a community association director and involvement in successful political campaigns at the federal and municipal levels as well as serving as Treasurer, Director of Development and Trustee Chairman at his church.

More recently Ed has been reprising his former roles involved with municipal planning, as he has worked with his daughter Marianne to develop her properties in Kelowna, British Columbia. Most recently he has worked with her in the rezoning and permitting phases dealing with 250 Lake Avenue, Kelowna and 262 Lake Avenue, Kelowna in the beautiful Abbott Street Conservation Area of that city.
